I have received the current Chrysler Canada Fleet program rules.
I have conducted "due diligence" to ensure that this applicant is a bona fide Fleet account and does not participate in third-party sales for export.
I have scrutinized at least five vehicle registrations or secured 3 orders or have recorded the GST# and I am satisfied that they are bona fide Fleet accounts.
I have verified that the applicant's business operations and that a physical business location does exist and are consistent with this application for a Fleet Account.
